

REMINDER

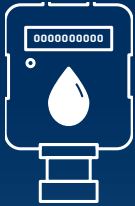

Your new water meter is on its way!

**Our
Water,
Our
Future**

Your New Water Meter Will be Installed in the Next Few Weeks!

Your new meter gives you the power to...

- ✓ Easily track your water use and costs
- ✓ Detect leaks and spikes in water use faster
- ✓ Reduce the City's carbon footprint with fewer meter-reading trucks on the road

On installation day:

- UPA, the City's contracted meter installer, will be changing your meter
- Make sure your water meter is accessible and your property-side service line is in good condition
- Your water service will be interrupted for 15 to 30 minutes
- Look for a door hanger from UPA letting you know they were there and that your meter has been changed

For more information about the City's Meter Replacement project:
