

City of Santa Cruz Green Building Program

Innovative Measure Verification Form

The City of Santa Cruz recognizes the use of attributes that promote and support green building that may not specifically be identified in our checklists and guidelines. Completed forms shall be completed and sent to the Green Building Environmental Specialist, Jackson Day (JDay@SantaCruzCA.gov), for review and determination of points accrued. Please also attach any support documentation for reference. Completed forms shall be returned to sender, and if points are earned, projects must add this form to plans prior to permit submittal for plan checker to review number of points earned.

The following innovative measures have been implemented to the fullest extent possible and documentation is readily available. A brief narrative of each measure is attached.

Feature or Material	Description of Innovative Measure
